

STRESS FREE SEALING OF THREADED PIPES WITH BELZONA

ID: 1342

PROBLEM

Traditional welding could not be used because of stress cracking, sparks and possible fire.

APPLICATION SITUATION

Sealing threaded pipe joints.

APPLICATION METHOD

Application was carried out in accordance with a modified Belzona Know-How System Leaflet VPF-11 created and approved by both parties.

BELZONA FACTS

Due to the expensive equipment in place the customer wanted a top solution for the sealing of threaded pipes. Traditional welding was not an option. The application of Belzona provided excellent sealing without heat. This solution caused no stress cracking and gave extra protection on the threaded joints. Client has now approved this Belzona application.
