

# BELZONA KEEPS GARAGE SAFE AND CLEAN

ID: 1343

## PROBLEM

The original floor coating lasted only 12 months and cleaning the surface was a big problem because of the rough surface.

## APPLICATION SITUATION

Concrete floor in Public Works garage.

## APPLICATION METHOD

Application was carried out in accordance with Belzona Know-How System Leaflet FPA-3. The concrete was abraded to remove the existing coating and profile the concrete. Areas masked off and Belzona® 5231 Yellow and Gray used for demarcation.

## BELZONA FACTS

For our customer it was very important that the Belzona® 5231 would resist chemicals, especially oil. They also required that the surface was anti-slip. After 2 years in service only small touch-ups were done due to large volume of traffic in garage. Customer very satisfied and proud of the new look. They recommended our solution to the fire department.

## INDUSTRY

Buildings & Structures

## LOCATION

City Authority, Canada

## APPLICATION DATE

October 2007

## PRODUCTS

Belzona 5231 (SG Laminate)

## SUBSTRATE

Concrete
