

BELZONA PROTECTS NEW HEAT EXCHANGERS

ID: 1516

PROBLEM

These units required corrosion protection. They were designed to operate with sea water at 70°C.

APPLICATION SITUATION

Heat exchangers working with salty water.

APPLICATION METHOD

The application was carried out in accordance with Belzona Know-How System Leaflet HEX-3.

BELZONA FACTS

Belzona coated the equipment rapidly and economically, without a need for more expensive and complicated systems such as ebonite, making it possible to coat the equipment onsite.

INDUSTRY

General Industry

LOCATION

Industrial treatments company, Barcelona, Spain

APPLICATION DATE

March 2010.

PRODUCTS

Belzona 5891 (HT Immersion Grade)

SUBSTRATE

Carbon steel
