

BELZONA PROTECTS PIPEWORK ON SEWAGE OVERFLOW SYSTEM

ID: 4740

PROBLEM

The newly fitted pipework had a paint system which was already showing signs of failure. Client required system to provide long term corrosion protection and be resistant to raw sewage.

APPLICATION SITUATION

New high capacity sewage overflow system constructed for the local water company.

APPLICATION METHOD

Application was carried out in accordance with Belzona Know-How System Leaflet VPF-2 and the Belzona 5811 Instructions-for Use leaflet.

BELZONA FACTS

The customer was looking for a system that would provide chemical resistance as well as being a long lasting coating. Being only a two coat application allowed a quick turn-around. Local by-laws required that all newly erected structures on-site to be coated black.

INDUSTRY

Water / Wastewater

LOCATION

Water company, Essex, UK

APPLICATION DATE

August 2012

PRODUCTS

Belzona 5811 (Immersion Grade)

SUBSTRATE

Mild steel
