

LOADING DOCK DRAIN COATED WITH BELZONA

ID: 5242

PROBLEM

The existing coating had failed, causing blockage of the drain.

APPLICATION SITUATION

Loading dock drain.

APPLICATION METHOD

The application was carried out in accordance with Belzona Know-How System Leaflet FPA-3 for protecting floors and drains against chemical attack. The surface was prepared for application by removing the existing coating and cleaned with a high pressure washer. Belzona 5811 was applied as a two coat system with a short bristle brush.

BELZONA FACTS

Belzona 5811 is a brush or spray applied coating that has excellent chemical resistance and provides outstanding protection from the effects of salt water, acid, alkalis, alcohol, hydrocarbon and the environment. This product can be applied to virtually any surface including cast iron, stainless steel, brass, copper, concrete, wood, fibreglass and aluminium.
