

BELZONA OFFERS SLIP RESISTANT COATING ON STAIRCASE

ID: 5243

PROBLEM

The customer wanted a coating that was slip resistant and offered protection from salt contamination.

APPLICATION SITUATION

Staircase access to car park.

APPLICATION METHOD

The application was carried out in accordance with Belzona Know-How System Leaflet FPA-3 for protecting floors and drains against chemical attack. The surface was prepared by power washing the surface to remove dirt, debris and salt contamination. A diamond grinder was used to abrade the surface and remove small floor imperfections. Belzona 5231 was applied for the first coat and Belzona 9221 was broadcasted for increased antiskid properties. A second coat of Belzona 5231 was applied within the overcoat window in accordance with Belzona Instructions For Use.

BELZONA FACTS

Belzona 5231 is a two-component, liquid applied coating system designed for floor areas where chemical, abrasion and anti slip resistance is required. Slip resistance can be improved by incorporating Belzona 9221.
