

BELZONA LINES COOLING PIPEWORK FOR A LARGE STEEL MANUFACTURER

ID: 8993

PROBLEM

The cooling pipework had suffered corrosion due to course and seawater being used as the cooling fluid.

APPLICATION SITUATION

Cooling pipework (100m long x Ø1.4m) within a Steel Manufacturing Plant for a multi-stage long-term project.

APPLICATION METHOD

The distributor applied Belzona 5811 by Airless Spraying to increase application speed and provide a more even DFT. The application was carried out in accordance with a modified version of Belzona System Leaflet VPF-02.

BELZONA FACTS

The customer has previously used Belzona 5811 and therefore has proven trust within the provided solution.

INDUSTRY

Steel & Metal Processing

LOCATION

Normande, France

APPLICATION DATE

November 2020

PRODUCTS

Belzona 5811 (Immersion Grade)
