

PROTECTION OF NEW FLYGT PUMP

ID: 9348

PROBLEM

Customer had a new pump and wanted to protect it before putting it in service to aid better longevity.

APPLICATION SITUATION

Customer bought a new flygt pump and decided to protect it before putting it in service. This preventive maintenance was possible due to customers' previous experience of high performance and improved efficiency of equipment with Belzona products.

APPLICATION METHOD

Pump was grit blasted to standard SSPC SP5 and coated with Belzona 1321.

BELZONA FACTS

Belzona high performance protection and improvement of efficiency in equipment convinced customer to coat pump before installation.
