

BELZONA PROTECTS ENGINE SUMPS AT OEM

ID: 965

PROBLEM

Most of production based on sub-contracting out the work but sump fabricator did not have expertise to specify coating for engine sumps.

APPLICATION SITUATION

Company won Ministry of Defence contract to build 60 military vehicles. Coating required on engine sumps.

APPLICATION METHOD

Application carried out in accordance with Belzona Know-How System Leaflet TCC-5. Approved contractor with experience of Belzona coatings applied the system to the confined spaces in the sump.

BELZONA FACTS

Belzona coating was approved following independent tests carried out to confirm suitability for the environment. The Belzona coating was also capable of being applied successfully into recesses of the sump.

INDUSTRY

General Industry

LOCATION

Engineering manufacturer, UK

APPLICATION DATE

March 2008

PRODUCTS

Belzona 5891 (HT Immersion Grade)

SUBSTRATE

Fabricated Steel Sump
